

alka Micronised Lime

Product of
Australia

 **TOW AND FERT**
BY METALFORM

Benefits of the Tow and Fert machine

- ⊗ Precision application of Alka Micronised Lime.
- ⊗ Accurate product placement.
- ⊗ Dust free application.

Alka can be blended with other nutrients including Entra Micronised Gypsum.

In pasture settings Alka Micronised Lime can be blended with molasses and other micronutrients.

Easy, efficient and effective application can be achieved when Alka Micronised Lime is applied with a Tow and Fert machine.

Tow and Fert machines are available in 5 sizes, both trailing and 3-point linkage, with options designed to suit various applications:

- ⊗ Broadacre
- ⊗ Pasture
- ⊗ Tree crops
- ⊗ Vegetables
